The Kentucky Transportation Cabinet (KYTC) inventories and inspects over 14,000 bridges in accordance with the **National Bridge Inspection Standards** (NBIS). Over 250 data items are collected and maintained on each bridge. A portion of this data is referred to as the **National Bridge Inventory (NBI)** and reported annually to the Federal Highway Administration (FHWA). Kentucky bridge maintenance activities are funded through **state road funds** and the FHWA **Highway Bridge Replacement and Rehabilitation Program** (HBRRP). The annual National Bridge Inventory (NBI) report determines the amount of HBRRP funds Kentucky will receive for a given fiscal year. The amount of state road funds is determined through the state legislative budgetary process.

HBRRP eligibility:

Rehabilitation: The bridge must be **structurally deficient** or **functionally obsolete** and have a **sufficiency rating** of 80 or less.

Replacement: The bridge must be **structurally deficient** or **functionally obsolete** and have a **sufficiency rating** of less than 50.

Condition ratings and **appraisal ratings** are key data items that determine the Sufficiency Rating, Structural Deficiency and Functional Obsolescence of a bridge.
